

## A collection of various household items, including brooms, buckets, baskets, and boxes, arranged on a plain surface. The items are diverse in color and material, featuring brooms with wooden handles and straw heads, buckets in blue, red, and green, and baskets made of woven straw or wicker. Several boxes are visible, some with labels like 'LITTO', 'GLORIA', and 'CAMPESINO'. The arrangement is a still life composition.

Each year one lot of various types of miniatures are manufactured for the Alacitas fair, which is held every year from January 24th through the first week in February.
