### Description

Made of large central medallion in rosette form, and 14 small rosette links, seven on each side. Medallion has a convex ribbed base of plain gold wire in arabesques, eight petals of plain, solid gold, each attached at both ends to under frame. Pendant below this is oval, 2.5 x 1.5 cm., of smooth, convex gold centre and plain wire scalloped edges. Centre of medallion is a daisy form, 14 petals of twisted filigree framing a paste "emerald" set 1.3 x 1 cm. The centre daisy and set are pinned to medallion by a paper-fastener device of wires run from shank of set to back of medallion and clinched open. Necklace incorporates different colored gold in small rosettes- red and yellow. These have plain wire scallops on edges and twisted filigree petal forms on solid bosses- each finished with a gold drop which is attached with clinched wire paper-fastener devices as with large medallion.
