

Basic Detail Report

Serpent brooch

Primary Maker

Los Castillo

Medium

Metal

Description

PreColumbian serpent design in married metals. A curving serpent with large teeth in its mouth, and some sort of frill or headdress on its head. Its tail has a fan with small balls hanging from the end of it. The main body of the serpent is silver and is spotted with different colored metals, one coppery the other brassy. The teeth and headdress are

also in the copper and brass colored metals.

Dimensions

3 3/16 × 1 1/4 × 1/4 in. (8.1 × 3.2 × 0.7 cm)
