Description

This finely and tightly weft woven and turned to side back apron has a geometric pattern slightly different than those of belt and front apron. The colors are natural, orange, black and hot pink. Selvedge at waist and hem are bands of hot pink. A black fringe is on both sides and at hem. Parallel on the sides are 2 strands of purple.

There are 3 similar 4 strand purple threads as part of hem fridge. It seems that in some case a green wool thread forms part of wool twist. Six strand braids in red and black are sewn on as ties. Worn over chemise.
