Date

c. 1965

Primary Maker

Candelario Medrano

Medium

Wire reinforced clay and tempera with a gloss finish

Description

The building is made in four stories, each a different bright color and each with a different window arrangement, which fronts a shallow interior space. At the very top a man with fruits on his back stands near a (Mexican) flag. Next to him, and on the levels below, there are women walking with their arms forward. Another man with fruit and wearing a sombrero stands at a window; wire-reinforced clay and tempera with a gloss finish; hand molded with slab construction, and painted. 16 figures.
