Description

Heavy double-handled platter with slightly concave bottom, slanting sides and flat rim. The bottom is punched in the center, surrounded by a four-part punched design

with five lobes on each side. Around the bottom edge is a dotted motif with vaguely J-shaped stamps around the upper dot. On the rim is a zigzag motif. The thick handles are soldered to the rim and hinged. They are formed to look like a man with thick arms, hanging by his hands from the hinge, his head hanging down.
